

MACHINE MAINTENANCE LUBRICANTS

ZURNOIL CROSS-REFERENCE GUIDE

INTERNATIONAL CHEMICAL CO.

manufactures a comprehensive portfolio of machine maintenance lubricants under the venerable ZURNOIL nameplate, a company founded by proud Philadelphia businessman O.F. Zurn in 1883.

Utilizing only premium base oils and specially selected additives, ZURNOIL lubricants are competitive alternatives to those of the major brands, but with the personal service and exceptional value that can only be provided by a continually owned and operated family business.
